SALE DAY INFORMATION

To view the online catalog, supplement sheets for weights and scrotals, video of selected lots and sale order, visit liscomdiamond.com

TERMS AND CONDITIONS

These cattle sell under the terms and conditions of the American Angus Association.

DESIGNATED PATHFINDERS

We have marked the cattle in each pedigree that qualify as #Pathfinders.

DESIGNATED CALVING EASE

We have marked the bulls we think will work on heifers. Please use your own judgment.

** Should work on all heifers

* Should work on larger heifers

BREEDING SOUNDNESS

All the bulls in the sale have passed a breeding soundness exam, tested negative for PI BVD and have been PAP scored. The bulls will be at M Diamond Angus by noon on March 25, 2025 for inspection prior to sale.

PAP SCORES

All bulls have been PAP tested. Yearling and summer bulls will have a supplement sheet of the scores sale day and we will have them up on our website as soon as possible.

INSPECTION

Cattle are available anytime at Track A Land and Cattle in Alcova, Wyoming and will be at the ranch March 25 through the sale date.

RETAINED INTEREST

All bulls selling will have 1/3 semen interest and 1/3 revenue-sharing interest retained by Lisco or M Diamond Angus. Full possession sells on all bulls.

DELIVERY/WINTERING

Yearlings will be delivered starting the first week of April. Two-year-olds and summer bulls must be taken immediately. Note the discount for bulls taken on sale day.

Delivery is free on all bulls within a 500-mile radius. For further distances please call; arrangements can be made for assistance if Lisco/M Diamond is contacted ahead of time. **Deduct \$100 per bull from purchase price if you haul yourself sale day or shortly after.**

SEMEN EVALUATION

Bulls have passed fertility testing and are guaranteed breeders.

ULTRASOUND

Will be provided on the supplement sheet. All bulls have been ultrasounded. Results are included in the catalog.

HERD HEALTH

A stringent herd health protocol has been implemented.

SALE DAY WEIGHT

Will be provided on the supplement sheet. All bulls have been ultrasounded. Results are included in the catalog and the numbers in the catalog are the individual ratios of the bulls.

TAYLOR LISCO (307)359-2707

JORDAN LISCO (307)359-1683

RYAN BONER (307)277-3782

We would like to invite you to our 33rd annual Bull Sale March 28, 2025, at 1:00pm. The sale will be held at M Diamond Angus Ranch in Glenrock, Wyoming. See directions. Lunch will be served at 11:00 a.m., so please join us for the hospitality before and after the sale.

It is hard to believe it has been 33 years. Friendship and a common viewpoint about raising good functional cattle brought our two families together, but it is the support and belief of our customers in our programs that have kept us rolling forward for 33 years. We would like to thank those who have supported our programs and welcome those of you attending for the first time. The friendships we have made over the last 33 years are the true treasures of this business. Brad and I have had the opportunity to watch each of our families grow and are proud to have them on the team. We could not do it without them! Taylor, Jordan, Trent, Ryan and families, it has been a true blessing.

Our Registered Angus cattle are truly "Born and Bred to Thrive" under our tough range conditions known to Wyoming, with the brutal winters and long hot summers we experience here in Central Wyoming. If they can survive and thrive here, we feel that they can excel in many environments. The calves are raised on mama's grass and lots of Wyoming scenery. Mother nature is allowed to take its course so we can identify those with the "Drive to Thrive." With market demands and ever-changing range and weather conditions, the Angus female will always be at the forefront of our breeding programs. Grab an Angus cow's tail and she will pull you through about anything. We demand our cows utilize the available forage and convert it efficiently to breed back on time and bring in a big, healthy calf at weaning. We also place a great deal of emphasis on the traits not measured by EPDs, fertility, fleshing ability, mothering ability, udder quality, disposition, and structural correctness.

This year has brought along some change and we are extremely fortunate to have the bulls being developed at Track A Land and Livestock under the care of Chad and Jamie Harkins and their staff at Alcova, Wyoming. The bulls are being fed and developed with longevity and soundness at the forefront. If you are in the area, please stop by and have a look. Chad and Jamie run a first-class operation! Their place is approximately 20 miles west of Casper, Wyoming on Highway 220. Once again, we will be offering some excellent long aged bulls (summer calved) from M Diamond that have been efficiency tested and a group of stout virgin 2-year-olds from Lisco Angus. Videos of the bulls should be available the second week in March by going to dvauctions.com or at liscomdiamond.com where a sale website has been developed. The bulls will also be PAP tested by Dr. Lanny Weddle with North Park Veterinary Clinic and he would be happy to answer any questions at 970-723-8314.

All the bulls have genomically enhanced EPDs and have tested free of all known genetic defects.

All the bulls in the sale passed a breeding soundness exam by Dr. Jim and Max Smylie, tested negative for PI BVD and have been PAP scored. The bulls will be at M Diamond Angus by noon on March 25, 2025 for inspection prior to the sale. If you have any questions, please feel free to call or e-mail.

Sincerely,

The Boner and Lisco Families

LISCO + M DIAMOND
FIRST YEAR BREEDING
Guarantee

Lisco/M Diamond will cover 50 percent of the value of bulls selling for \$3,500 or more if they are injured during their first breeding season. Breeding season is defined as the 90-day period following the first turnout of the bulls. Fifty percent of the value of the injured bull, minus one-half salvage value, will be given as credit in a following sale or toward a replacement bull if one is available. Salvage value, if any, will be split equally between Lisco/M Diamond and the buyer. All injured bulls must be diagnosed by a veterinarian. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by Sept. 1, 2025.

EXAMPLE 1:

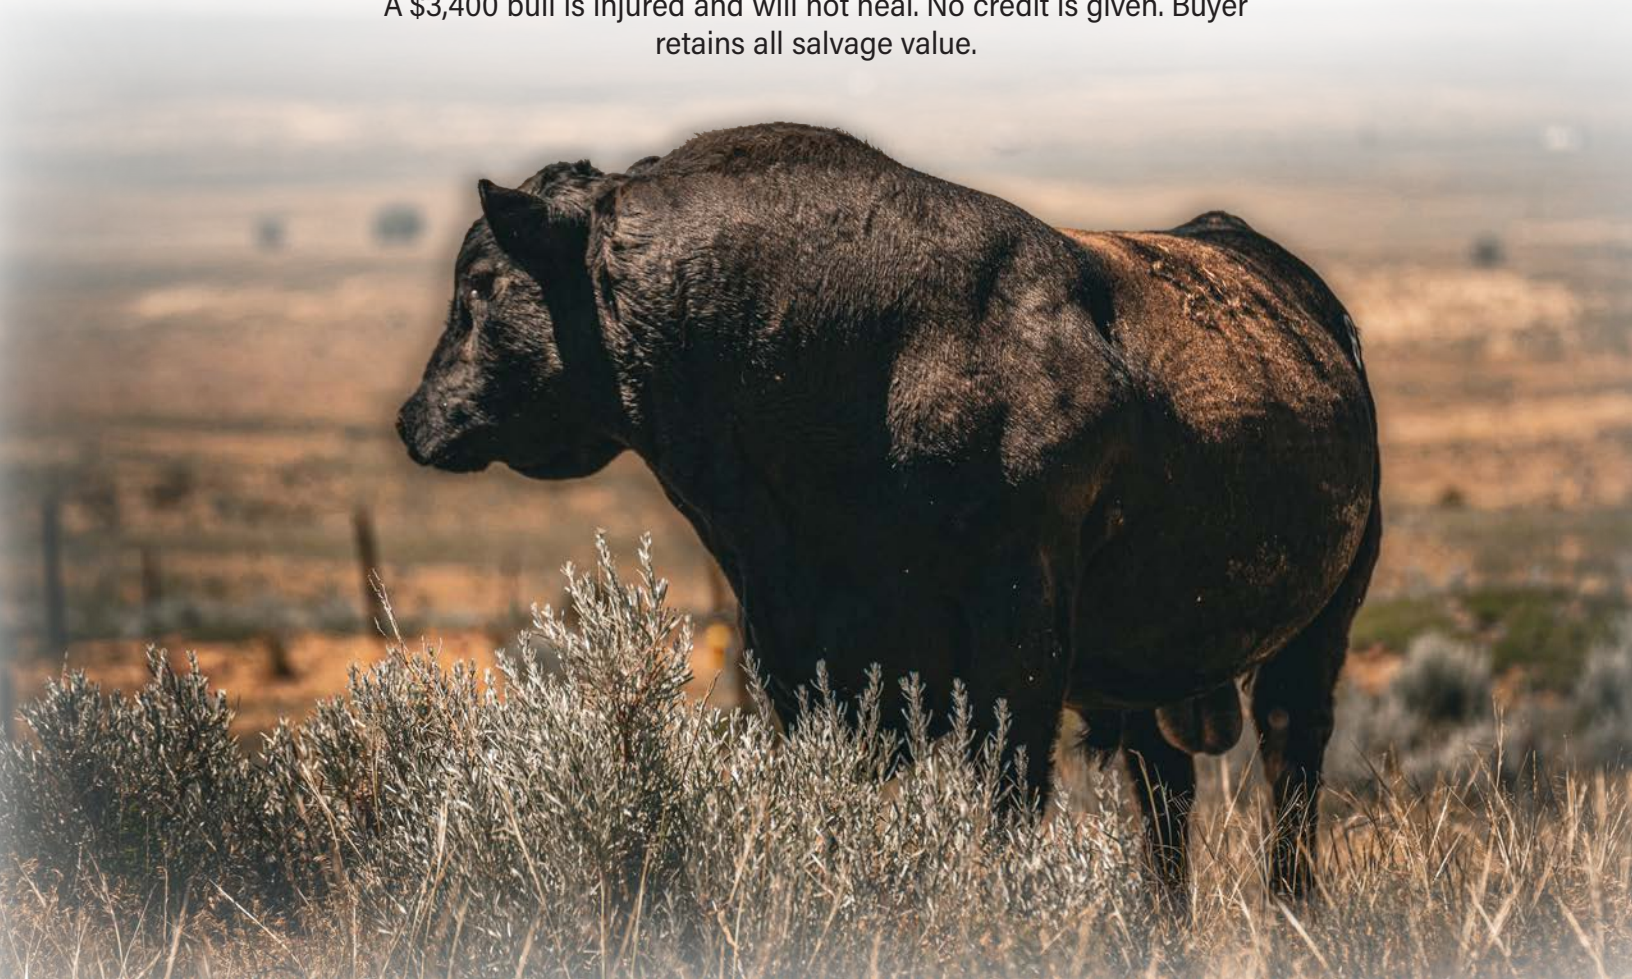

A \$5,000 bull is injured and will not heal. A credit of \$2,500 minus one-half of any salvage value will be given to the buyer.

EXAMPLE 2:

A \$3,500 bull is injured and will not heal. A credit of \$1,750 minus one-half of any salvage value will be given to the buyer.

EXAMPLE 3:

A \$3,400 bull is injured and will not heal. No credit is given. Buyer retains all salvage value.

S Wrangler 830 is a calving ease Coalition son with an impressive phenotype and a pedigree rich in performance and maternal strength. His dam is double-bred to Chisum, known for muscle and maternal production, and his lineage includes Grid Maker, EXT, and Traveler 6807. Retained by Spickler South and later co-owned with M Diamond Angus, Wrangler has been successfully used on both registered and commercial heifers. His consistent first calf crop marks him as an elite herd sire.

Ranahan, a Wrangler son, embodies the ideal all-around cowboy with calving ease, performance, maternal predictability, carcass value, and a calm disposition. This deep-bodied, heavy-muscled bull has excellent structure, strong feet, and a commanding presence. His outcross pedigree makes him a versatile sire suited for diverse breeding programs.

Moxley is the epitome of the Musgrave breeding program, combining prominent sire lines and top cow families. He is phenotypically and genetically balanced, with depth, muscle, stout structure, and a square, solid foundation. His herd sire presence and calm disposition make him an outstanding choice for breeding programs.

Grand Finale earned his reputation as a standout sire. He was the high-selling bull in the 2015 Lisco Angus sale at \$13,000 and set a record 205-day weight of 835 pounds. Produced from a Pathfinder dam, Finale consistently delivers. His daughters feature perfect, well-balanced udders, while his sons are phenotypic standouts that excel in performance.

Mr. Consistent, also known as Tahoe, is a highly proven, multi-purpose sire renowned for his customer satisfaction and adaptability. He delivers calving ease, growth, and end-product merit while excelling in producing daughters with excellent udder quality and longevity. His progeny thrive in diverse environments and are top-ranked for hair shedding, making them low-maintenance and profitable for building durable cow herds. Tahoe consistently remains a top seller due to his reliability and versatility across various operations.

Out of a tiddy uddered Summit daughter that ratios 104 on 3 calves. Long and smooth made.

THE INDUSTRY STANDARD NOW HAS HIGHER STANDARDS.

Next Generation Genetic Testing For Best Generation Angus.

Never satisfied. That's the true trait of any Angus breeder. Same with us. Angus GS™ is not resting on past accomplishments. There's more work to be done. With the addition of 22,000 SNPs, Angus GS becomes the unmatched Angus specific genomic profiler. It provides greater power for traits including calving ease, birth weight, marbling, heifer pregnancy and more. Realize your operation's full potential.

Visit angus.org/AGI/AngusGS for the next generation, and only, genomic test of its kind.

LISCO + M DIAMOND GROW SAFE 2025

WHY FEED EFFICIENCY DATA?

At M Diamond Angus we believe the most economically relevant trait in the beef industry is feed efficiency. Feed efficiency is described as being moderately heritable. It is expected to have a 25% to 30% chance of being passed on to the next generation. Therefore, we believe that we need to put selection pressure on this trait. By doing so we can create more feed efficient cattle. For this reason we decided that we needed to find a way to obtain feed efficiency data on the genetics that we are providing our customers.

THE FEED TEST EXPLAINED

The summer bulls were tested using a GrowSafe testing facility for 90 days. A growing diet was fed, consisting of cracked corn, ground alfalfa hay, corn silage, and protein supplement. The ration was formulated for an estimated daily gain of 3.25 lb/day. Individual weight gain and feed intakes were collected on each bull. The following calculations were measured:

AVERAGE DAILY GAIN (ADG) – Total weight gain divided by 90 days.

RFI – Residual Feed Intake. RFI is the preferred method of evaluating efficiency in seedstock animals, because it is an efficiency measurement that adjusts for the size of the animal. Using traditional feed efficiency measurements (to select cattle) would cause you to indirectly select for larger animal size because larger frame animals tend to be more efficient. RFI is a feed efficiency index independent of animal size. RFI numbers refer to the comparison between actual feed intake vs. expected feed intake (based on the ration fed and animal size). A negative number is preferable, indicating a more efficient animal that consumed less feed than predicted. Positive RFI indicate a less efficient animal that consumed more feed than expected.

FEED GAIN – A measurement of feed efficiency, listed as the lbs of feed required to achieve 1 lb of weight gain for each bull. This is calculated using the daily feed intake and ADG for each bull. A lower number indicates a more efficient bull (less feed required to achieve weight gain).

SUMMER BULLS GROW SAFE TEST RESULT WILL BE AVAILABLE SALE DAY VIA SUPPLEMENT SHEET

U2 ERELITE 109Z

The 109Z progeny continue to impress. She never ceases to amaze us with each new group of calves as they are born here. She has an uncanny ability to add power, performance and phenotypic excellence to whatever mating we choose. The bulls we are offering this year are proof of what she brings to the table. We are so excited with the program changing progeny she produces and look forward to what those superior economically important genetic traits will provide to both our ranching business and those of our customers.

8 SONS SELL AS LOTS - 11, 12, 13, 14, 15, 22, 40 AND 103.

MARCYS 13 ETHELDA E 15-3

Marcys 13 Ethelda E 15-3 was selected as the top selling cow of the 2017 Marcy Female Sale and has since gone on to prove herself as an elite cow. Garnering over \$200,000 in progeny sales she records a progeny weaning ratio of 105 on four natural calves along with progeny IMF and ribeye ratios of 103 on 35 head with 28 daughters in production who post a collective progeny weaning ratio of 102. 15-3 is a powerful female with a ton of performance and end product value. She has proven to be the type of cow that you want to build a herd around. She is still being used very heavily in the M Diamond Angus ET program. She is proving to produce very attractive cattle with lots of rib, a long hip, and plenty of muscle while being exceptional for both IMF and ribeye area. However, the best part of 15-3 are the females in production. They are feminine, functional, clean fronted individuals with a ton of capacity and exceptional udder quality. They flat out produce as is reflected by their collective progeny weaning ratio of 102.

This bull has been a standout since he was a young calf. He just has that presence about him that says "herd bull". He backs that up with outstanding performance and a powerful set of numbers. We are calving our first Right Time 7861 daughters and they are very impressive. This potential herd bull brings power, performance and tons of maternal ability to the table.

This bull is a little more moderate framed than his brother who we started this section with. He combines the highly maternal lines of Right Time 7861 and 109Z into an outstanding phenotypic package. Add in the high performance and impeccable structure this highly functional bull can add to anyone's program providing a great opportunity for even the most discerning cattleman.

A real high performance and highly maternal bull. A bull that will sire steers that push down the scales and heifers that will make Mama cows who bring in a good one year in and out. His outstanding dam has raised eight calves with a combined weaning ratio of 107 and not a single one has ratioed under 101. She is a hard working cow who gets the job done every year.

A true herd sire prospect, we call him a Man amongst boys! Starting out with a moderate birth weight of just 80 pounds to ratio 91 and a weaning ratio of 108, this bull is a curve bender. He has continued to grow since weaning and is one of the heaviest bulls in the sale. A moderate bull with tremendous rib shape and a big hip, he is loaded with muscle! He reads very well on the carcass side and has qualified to be recognized by CAB. His dam is a tremendous producing Pathfinder cow with no holes. A good footed cow with a good udder. Here is a bull that puts it all together.

This bull is a sure shot sleep all night heifer bull. He will sire calves who consistently come easily and don't sacrifice performance at weaning time. His dam is an outstanding Justified daughter who went Pathfinder recording 3 calves to ratio 90 at birth and 3 calves to ratio 111 at weaning. A moderate cow with a great udder who continues to breed back AI year after year. A bull who reads well on the carcass side and qualifies for CAB.

You won't miss this one on sale day. This bull is extremely hard to fault from a phenotypic standpoint, a super attractive individual. His outstanding Pathfinder dam was our pick of the Coalition daughters at Spickler Ranch South and we anticipate her joining our ET program as a donor. Here is a super exciting maternal bull who has matured into an exceptional individual.

I wouldn't be afraid to use this bull on heifers. His dam, who is sired by N Plus, is a low birth weight cow and ratios 2 calves at 97 for birth. His dam is a moderate, easy keeping female. Moderate birth weight, good growth, and highly maternal.

Another really good April born calf. He is out of the top selling summer bull from our 2022 sale. We purchased half interest back in the bull because we thought so highly of him and have used him to clean up the registered cows. This bull has a ton of rib and has the look of a real performance bull but comes in a calving ease package.

5/8 brother to Lot 118. This bull should work on larger heifers.

page
39**DIRECTIONS TO SALE FACILITY****M Diamond Angus Ranch**

602 COLE CREEK ROAD, GLENROCK, WY 82637

FROM CASPER

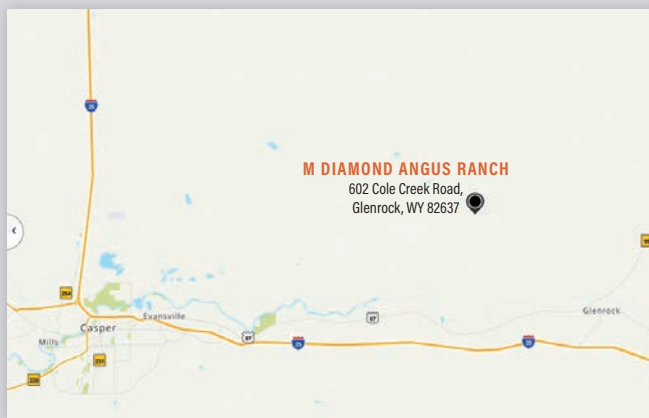

From the east side of Casper (Hat Six Rd) get on US Highway 20-26 (old Glenrock Highway). Head east on the old Glenrock Hwy for approximately 13 miles. Turn left on County Road 22 (aka Cole Creek Rd) and go north for 6 miles. Turn right at the "Boner" ranch sign and follow road into ranch and sale facility.

FROM GLENROCK

From the 4-way stop intersection in Glenrock head west towards Casper on 20-26 (old Glenrock Highway) for approximately 5.5 miles. Turn right on County Road 22 (aka Cole Creek Rd). Go north for 6 miles. Turn right at the "Boner" ranch sign and follow road into ranch and sale facility.

DO NOT USE GOOGLE MAPS FOR DIRECTIONS. YOU WILL BE LOST!

NOTE - You will pass the turn off to Brad and Laurie Boner's house at 3 miles - keep going north for 3 more miles.
